Note: For the purpose of this report, enrolment includes only those students who were active on September 30 and had not previously graduated.

The dropout count is based only on students who were active on September 30, dropped out and did not return to school by the following September 30. In cases where students attended more than one school, double counting of dropouts may have occurred. Based on our estimate, the incidence of this is approximately 0.1%.

-- Indicates the school was closed or did not house grades 7 or higher that year.
